1. Promoting Good Telephone Service: GOOD TELEPHONE SERVICE is based on courtesy, accuracy, speed of subscribers, and operating personnel. Additionally, subscribers should be guided by the following general rules:

a. **Brevity.** For economy and maximum use of available facilities, telephone conversation should be brief as possible. This is particularly true of long distance calls.

b. **Authorized Use.** Personal matters or unofficial business should not be discussed over telephones that are authorized for "official use only" without consent of commander or supervisor.

c. **Conversing with Operators.** Conversations with switchboard operators must be limited to requesting pertinent information and giving instructions for placing calls. Unnecessary conversation keeps another from receiving prompt attention.

d. **Base operators** answer many calls from a variety of customers. They must be personable, courteous, diplomatic, and helpful in providing quality service to meet the needs of our customers. Many times their efforts are very trying and unrewarding. The base operator will make every effort to assist in the completion of official calls. There are times when a call cannot be completed due to nonavailability of lines, saturation at the distant end or existing backlogs, all of these are beyond the control of the operator. Your patience and understanding will be appreciated.

2. Directory Change: This directory contains information as listed in our directory files. To give you the best directory possible and accurate telephone information service, we need your support and cooperation. Please provide changes to the Unit Telephone Control Officer, 213-6336, CSC/ITO. The unit TCO has been assigned the responsibility of ensuring that all information regarding additions, deletions, or changes are updated in the base directory and also published in the VAFB Bulletin for prompt dissemination.

3. Request for Telephone Services:

a. **Official Requests for Telephone Service** (installations or relocations): will be processed through the Unit Telephone

Control Officer (TCO), 213-6336, CSC/ITO. The Unit TCO reviews and submits subscribers' requests. **Note:** Only authorized personnel from the CSC/ITO office may add, remove, or relocate telephone equipment on Vance AFB.

b. **Special Notice:** The CSC/ITO Communications office, 213-6045, will be notified prior to digging ditches, post holes, or excavations by anyone working on Vance AFB.

c. **Unofficial Commercial Service:** Commercial telephone service for BOQs, nonappropriated funded activities, and private quarters may be obtained from the local telephone company. Installation, monthly rental, and toll charges made from this type service will be the responsibility of the individual or office concerned. Individuals requiring commercial service will call the AT&T business office by dialing 1-800-464-7928 or one of the other local service providers to establish unofficial service.

4. Government Controlled Telephone Service (Class of Service): Government controlled telephones installed at Vance AFB are administratively classified as follows:

(a) Class "A" telephones authorized for the transaction of official government business and have access to off base trunk lines, DSN, and leased long lines.

(b) Class "C" telephones restricted to official business having no direct dial access to off-base trunks or DSN.

5. Instructions for using the Vance AFB Telephone System:

c. To call Vance AFB from the Enid calling area, dial 213 plus extension. For Vance information and base operator assistance dial 213-5000.

d. **Emergency Calls:** Ambulance, Fire, Security Police, Chaplain, and other Emergency numbers: See front cover.

e. **DSN:** See paragraph 16.

f. **Long Distance:** See paragraph 12.

g. **Directory Assistance:** THIS SERVICE IS FOR OFFICIAL USE ONLY: Off base information calls are placed through the base operator. Dial "0"; give the operator your name, office symbol, and area you are calling. A charge per directory assistance (information) call is assessed by AT&T. To minimize this cost, numbers should be looked up in the AT&T telephone directory whenever possible.

h. **Three-way Conference:** To add a third party, depress receiver switchhook and dial the number (extension, DSN or off base). If telephone set has a "Flash", "Link", or "Transfer" button, it must be used in place of the switchhook. When the third party answers, depress receiver switchhook, "Flash",

"Link", or "Transfer" button and a three party conference is established.

i. **Conference Calls:** Dial "O" and give the operator the numbers you want on the conference (maximum of 6). Only two DSN/off base numbers may be on a conference call. If more than two DSN/off base numbers are needed, the DSN operator ("94 + O") can assist.

6. Reporting Telephone Service Complaints:

- (1) Type of trouble encountered.
- (2) Extension/ckt number trouble is on.

7. Reporting Nuisance and Threatening Calls: Malicious threatening, abusive, indecent, annoyance, or harassing telephone calls, including those in which obscene or profane language is used, are prohibited by state and federal laws. The following actions should be taken if you receive such a call:

8. Security Instructions COMSEC: The telephone system on Vance Air Force Base is not secure. Classified information should not be discussed or revealed over non-secure telephones. Do not "TALK AROUND" classified information. Personnel who make disclosures of classified information during a conversation on a telephone are subject to disciplinary actions. Secure voice is available at Vance AFB via the STE secure telephone. Locations of STE telephones are listed on the inside back cover of this directory.

9. Care of Telephone Equipment: The telephone is a complicated instrument and requires proper treatment in order to provide the service expected. All official telephones are purchased by the Air Force with appropriated money. This means, telephones should be protected in the same manner you would protect any resource provided by the government.

a. Do not slam the hand set when hanging up at the end of a conversation.

b. Do not allow the cord to become twisted and knotted.

c. Do not attempt to relocate or repair the instrument, for assistance contact CSC/ITO, Communications, 213-6336.

15. Instructions for Using DSN:

a. General. The Defense Switched Network (DSN) is the principle long haul, voice communications network within the Defense Communications Systems, providing unsecure direct distance dialing service worldwide through a system of government-owned and leased automatic switching facilities. The purpose of DSN is to handle essential command and control, operations, logistic, intelligence, diplomatic and administrative traffic.

b. Precedence. The Joint Uniform Telephone Communications Precedence System is directed for use by all authorized users of voice communications facilities of the Department of Defense. Since the effectiveness of the system depends upon the cooperation on the part of persons authorized to employ it, users must be familiar with the purpose to be served by each level of precedence category and the types of calls which may be assigned the respective precedence. Priority is the highest precedence available at Vance AFB.

(1) PRIORITY pre-empts lower precedence calls. PRIORITY is reserved for calls that require prompt completion for national defense and security, the successful conduct of war or to safeguard life or property, which do not require higher precedence.

(2) ROUTINE has no precedence over any other call, and is handled in sequence as placed by the calling party.

c. USE of DSN:

(1) Will be authorized for official communications.

(2) Will be restricted to:

(a) Only those calls that are essential, and would stand the scrutiny afforded a commercial toll call.

(b) The minimum time required to accomplish the official business and should not normally exceed 5 minutes.

(c) The use of a precedence level in accordance with the subject matter of the call established in the Joint Uniform Telephone Communications Precedence System.

(3) Will not be authorized for:

(a) Use in areas adjacent to general gathering or recreational areas, or in general of MWR facilities.

(b) Calls within an installation metropolitan area, or those confined geographical areas where other existing government provided local services is adequate.

(c) Unofficial or personal calls.

(d) Off-net extension of calls into the commercial system at a distant PBX, except where such extension has been previously approved by the local authorities controlling the switchboard.

(4) Telephone Monitoring. The user of the DSN system should be aware that this DoD system is for official use only and is subject to management monitoring in accordance with AFI 33-111.

16. DSN Calling Instructions:

a. Routine DSN calls:

(1) Users with dial-access DSN should:

(a) Dial the DSN access code 94.

(b) Listen for the second dial tone.

(c) Dial the 7 digit DSN number.

Prefixes for direct-dial are given followed by a letter X for each digit required for the extension number. For example, the direct-dial DSN prefix for Vance AFB is 448. It is shown as 448-XXXX, indicating that a four-digit extension number is required. If the desired extension is not known, the calling party must obtain the number from operator assistance at the destination.

b. DSN Overseas. Vance AFB can direct-dial most DSN overseas. If you need assistance to place an overseas DSN call, dial "0" to reach the base operator.

- 1) While logged in to your mailbox, press **8 4**.
- 2) Enter your current password, then press #.
- 3) Enter your new password, then press #.
- 4) Enter your new password again, then press #.

Also, CallPilot requires that you change your password on a regular schedule set for 90 days. Keep your mailbox secure by choosing passwords that are not easily discovered.
- Decide on a system for choosing passwords that is easy for you to remember but hard for anyone else to guess. For example, you can create a unique and easy to remember password by combining letters and numbers on your telephone keypad.

Recording greetings and name

You can record external, internal, and temporary greetings. Callers from outside your organization hear your external greeting, callers within your organization hear your internal greeting. If you don't record an internal greeting, all callers hear your external greeting. All callers hear your temporary greeting if you record one. - 1) While logged in to your mailbox, press **8 2**.
- 2) Press **1** for External Greeting, **2** for Internal Greeting, **3** for Temporary Greeting, or **9** for Personal Verification.

 - To delete a greeting, press **7 6**.
- 5) Press **4** to return to your messages. When you record a temporary greeting, tell your callers the times or dates of your absence, and when you will retrieve your messages. You can set the month, day, and time for the greeting to expire. If you don't set an expiry date, the temporary greeting will stay in effect until you delete it.
